§ 802.52 Procedure in dispute cases not involving wages or salaries. (a) If the National War Labor Board refers a labor dispute over which it has obtained jurisdiction to a Regional War Labor Board, the Regional War Labor Board to which the case is referred will be notified and a formal certification, together with all other available data and reports, will be transmitted to it.

(b) Upon receipt of the certification, the case will be considered by a New Case Committee of the Regional War Labor Board, composed of the Chairman or Vice-Chairman, one industry and one labor member, and the Disputes Director. The New Case Committee, in determining what action to take, will consult with the Regional Representative of the Conciliation Service. If the Committee does not consider the case ready for a hearing, it may refer the case back to the parties for further negotiation or to the Regional Representative of the Conciliation Service for further information, or further investigation or conciliation. If the case is deemed ready for a hearing, the Committee will designate a tri-partite panel to hear the case, unless the parties agree to have the case heard by a single person, in which event the Regional War Labor Board will designate one of the public panel members, or some other suitable person to hear the case. Wherever the term "panel" is hereafter used, it will be deemed to include a single hearing officer in the cases just mentioned.

(c) If a case is assigned to a panel, the panel shall advise the parties that they may if they so desire, submit their evidence and argument in writing. If the parties mutually agree in writing to such a presentation, the Disputes Director shall transmit to them any requests for information required by the panel and shall advise them of the procedure to be followed in submitting their case. If the parties do not agree to present their case in writing, a public hearing shall be held in accordance with the provisions of §§ 802.15 to 802.27 of the Rules of Procedure of the National War Labor Board. adopted November 27, 1943.

(d) Any member of the Regional Board who in a particular case serves as a hearing officer or on a panel shall be disqualified from participating in any other capacity in any further proceedings in the case.

Paragraphs (e) and (f) remain the same. Additional paragraph (g) is added as follows:

(g) At any time before its decision of a dispute case, the Regional Board may, upon the request of a party or upon its own motion, order a further hearing to be held before the Board or a panel for the purpose of receiving evidence not introduced at any prior hearing in the case. The conduct of such hearing shall be governed by the provisions of §§ 802.15 to 802.27 of the Rules of Procedure of the National War Labor Board, adopted November 27, 1943.

Paragraphs (b), and (c) of § 802.53 are amended to read as follows:

(b) If an agreement to refer the wage or salary question to arbitration is brought about, whether as a result of conciliation or without it, and the arbitrator's award provides for a wage or salary adjustment, a copy of the award, together with all of the information submitted to the arbitrator relating to the wage or salary issue, shall be filed by the arbitrator directly with the Regional Board at the same time that it is issued to the parties. Arbitrators should consult the Regional Wage Stabilization Director, in advance of any award, regarding the application to the particular situation of the Board's wage stabilization policy.

tion policy. (c) If an agreement calling for an adjustment has been reached the procedure thereafter will be the same as in voluntary wage and salary adjustment cases. If the case has resulted in an arbitration award, the procedure will be that set forth in § 802.31 of the Arbitration Policy of the National War Labor Board, adopted November 27, 1943. A ruling of the Regional Board approving, modifying, or disapproving the award shall have the same effect, and be subject to the same provisions for stay and review, as similar rulings of the Regional Board on an application for the approval of a voluntary wage or salary adjustment. In all cases the conciliator, hearing officer, or panel chairman should remind the employer that he should promptly upon receiving the award or report (and without waiting for the Board's decision) apply to the Office of Price Administration for price relief if he intends to make any order requiring increased payment of wages and salaries the basis for asking such relief.

Present paragraphs (d) and (e) are repealed.

Paragraph (b) of § 802.55 is amended to read as follows:

(b) If the Regional Wage Stabilization Director disapproves the application (or approves a lesser increase than that requested) the applicant, or any application if there be more than one, may within ten days after the date of the issuance of the ruling file with the Regional War Labor Board a petition for review by that Board of the action of the Regional Wage Stabilization Director. Upon receipt of such a petition the Regional Board shall rule upon the application on the basis of the entire record of the case and such other information as may be available to it.

In paragraph (c) (1) and (c) (2) of § 802.57 the first sentence has been amended to read as follows:

(1) Within fourteen days after a Regional Board mails to a party a ruling denying or modifying a voluntary application for approval of a wage or salary adjustment, or remits to him a directive order in a dispute case, such party to the case may mail to the Board at Washington, D. C., an original and four copies of a petition, including supporting docu-

ments, seeking review by the Board of such ruling or directive order.

(2) Within fourteen days after a copy of a petition for review is mailed by the petitioning party to any other party to the case, such other party may mail to the National War Labor Board an answer to the petition.

In paragraph (d) (3) of § 802.57 the first sentence has been amended to read as follows:

(3) The Regional Board shall not act on any petition for reconsideration of a directive order or ruling unless (1) the petition is mailed to the Regional Board within fourteen days after the mailing by the Regional Board of the order or ruling in question and sets forth with particularity the grounds upon which the petition is based, or, (2) the petition is filed promptly upon the petitioner's discovering material and substantial evidence which the petitioner was unable, despite due diligence, to discover in time to present to the Regional Board before it issued its order or ruling, and sets forth with particularity such evidence, or (3) the petition is filed promptly upon the occurrence of events after the date of the order or ruling which make the order or ruling harsh or unfair, and sets forth with particularity such events. AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 FR. 329; E.O. 9125, 7 FR. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 8656, 3656; Pri. Reg. 1 as amended May 15, 1943, 8 FR. 6727.

Part 1010—Suspension Orders [Suspension Order S-478, Stay of Execution]

JAMES A. GAVIN & SONS, INC.

James A. Gavin & Sons, Inc., has appealed to the Chief Compliance Commissioner from the provisions of Suspension Order S-478 on the grounds that it would suffer irreparable damage unless the suspension order was stayed pending determination of its appeal from the provisions of Suspension Order No. S-478. The Chief Compliance Commissioner has directed that the suspension order be stayed. In view of the foregoing, it is hereby ordered, that:

§ 1010.478 Stay of execution of Suspension Order S-478. (a) The provisions of § 1010.478, Suspension Order S-478, issued January 8, 1944, are hereby stayed and shall be of no force or effect

pending further order directed by the Chief Compliance Commissioner.

PART 927-NICKEL

[Conservation Order M-6-b, Direction 1]

The following direction is issued pursuant to M-6-b:

To all holders of nickel plating solutions who have had the solutions in their inventories since March 30, 1942, and to any persons who may acquire such solutions after February 9, 1944:

February 9, 1944:
Notwithstanding the provisions of General Preference Order M-8-a, any holder of nickel plating solutions who has held such solutions in his inventory since March 30, 1942, is hereby given authorization (1) to deliver those solutions to any person (unless he knows or has reason to believe the person accepting delivery intends to use the solutions in violation of the restrictions of this direction), or (2) to use them for plating subject to the restrictions of this direction.

Notwithstanding the provisions of Conservation Order M-6-b, the solutions may be used by any person holding them on February 9, 1944, who had acquired them on or before March 30, 1942, or by any person who acquires them after February 9, 1944, for any purpose whatsoever, if (1) no nickel anodes (scrap or otherwise) are used in the plating process and (2) no additional nickel salts are added to the solutions. If the nickel anodes are used or salts are added to the solutions the solutions may be used without further authorization from the War Production Board, in any manner not prohibited by paragraph (a) and List A of Order M-6-b, unless of course, specific restrictions were placed on the use of the anodes or salts at the time of their allocation by the War Production Board.

This direction covers only those solutions in inventory on or before March 30, 1942, and does not apply to solutions subsequently allocated to platers for specific uses by the War Production Board. Your attention is further called to the fact that there are many limitation orders of the War Production Board restricting nickel plating in addition to Order M-6-b, and the provisions of any such order apply when they are more restrictive than this direction.

[Supplementary Order M-6-c, Revocation]

NICKEL SCRAP AND SECONDARY NICKEL

Section 927.4 Order M-6-c is revoked. This revocation does not affect any liabilities incurred under this order. The delivery and acceptance of delivery of nickel scrap and secondary nickel, and their melting, remain subject to all other

applicable regulations and orders of the War Production Board.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 11B, Direction 1]

RATINGS FOR PRODUCTION MATERIALS FOR UNCLASSIFIED PRODUCTS MAY BE ASSIGNED PURSUANT TO A CMP-4B APPLICATION

The following direction is issued pursuant to Priorities Regulation 11B.

(a) A manufacturer of a Class B product who also makes the same product without incorporating controlled materials in it (which is an unclassified product) may file a single CMP-4B application covering his entire production of the product. He does not have to file a CMP-4B application for the part of his production which is a Class B product and a WPB-2613 application for the part of his production which is an unclassified product. For example, abrasive wheels are listed on the Official CMP Product List. A manufacturer of abrasive wheels incorporates controlled materials in some of his wheels and makes the rest of them without using controlled materials. . He may file a single CMP-4B application for his entire production of abrasive wheels, or, if he prefers, he may file a CMP-4B application covering the wheels which are class B products and a WPB-2613 for the wheels which are unclassified products.

(b) If such a manufacturer decides to file a CMP-4B application he must explain in a letter accompanying his application, that the products covered by the application include both Class B and unclassified products. In filling out the CMP-4B application the manufacturer does not have to make any breakdown between the two types of products.

(c) The preference ratings assigned pursuant to such a CMP-4B application may be used in ordering production materials both for the Class B products and for the unclassified products covered by the application. The allotment number identifying the allotment made to the Class B product schedule must be used to identify the ratings when applied to orders for production materials.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 4, as Amended Feb. 10, 1944]

SALES OF CONTROLLED MATERIALS BY WARE-HOUSES AND DISTRIBUTORS

§ 3175.4 CMP Regulation 4—(a) Purpose and scope. This regulation describes the procedure to be followed by warehouses and distributors in delivering controlled materials from stock (including consigned stock) except that in the case of steel, deliveries from one dis-

tributor to another are governed by Orders M-21-b-1 and M-21-b-2.

Steel

(b) Definitions with respect to steel. The following definitions shall apply for the purpose of this regulation and for the purpose of any other CMP regulation unless otherwise indicated:

(1) "Steel" means carbon steel, alloy steel, and wrought iron, in the forms and shapes listed in Schedule I of CMP Reg-

ulation No. 1.

- (2) "Distributor" means any person (including a warehouse, jobber, dealer or retailer) who is engaged in the business of receiving steel for sale or resale in the form received or after performing such operations as cutting to length, shearing to size, torch cutting or burning to shape, sorting and grading, pipe threading, or corrugating or otherwise forming sheets for roofing and siding; but a person who, in connection with any sale, bends, punches or performs any fabricating operation designed to prepare steel for final use or assembly shall not be deemed a distributor with respect to such sale.
- (c) Rejection of orders. (1) A distributor must reject all orders except those which he is required or permitted to fill under paragraph (d).

(2) [Deleted Jan. 13, 1944,]

- (3) A distributor must not deliver any steel on an authorized controlled material order bearing a specific allotment number except in the period for which the allotment was made or within 15 days before or 30 days after such period. For example, a distributor receiving an order bearing the allotment number N-1-4Q43 may fill the order at any time during the period September 15, 1943, through January 31, 1944. Orders bearing symbols such as MRO which do not have to bear any quarterly identification are not subject to this provision.
- (4) A distributor may reject any order for steel on which the customer does not specify immediate delivery. Even if he elects to accept an authorized controlled material order calling for future delivery, he is not allowed to set aside the steel covered by such order. He must deliver it on any order calling for immediate delivery that he is required to fill under paragraphs (d) (1), (2) or (3), and may deliver it on any order calling for immediate delivery that he is permitted to fill under paragraph (d) (4).

(5) A distributor may reject any order calling for the delivery of steel which he does not have in stock or which he does not know is in transit to his stock.

(6) A distributor may reject all or any part of an order which the War Production Board specifically authorizes him to reject. If a delivery would deplete his stock to a point where his function in the distribution of steel would be seriously impaired, he may apply to the War Production Board for authority to reject the order and may delay filling the order until his application is acted upon.

(d) Orders which must be filled. A distributor must fill the following kinds of orders unless he is required or per-

mitted to reject them under paragraph

- (1) A distributor must fill all authorized controlled material orders.
- (2) A distributor must fill orders for delivery to farmers as required by Priorities Regulation No. 19.
- (3) A distributor must fill orders bearing preference ratings of AAA.
- (4) A distributor may fill other orders as follows, but is not required to do so regardless of whether rated or not:
- (i) Orders in amounts of \$25 or less. No endorsement is required on such orders.
- (ii) Orders calling for delivery to one customer during any calendar quarter of not more than 10 tons of carbon steel, 1,000 pounds of stainless steel and 2 tons of other alloy steel, providing such deliveries of any one product group and type to one customer do not exceed the amounts shown below:

	Quantities in pounds per quarter unless otherwise stated		
	Carbon (Including mrought Iron)	Stainless	Alloy (Other than stainless)
Tool steel, including drill rod	200 1,000* 300* 300 20,000	100°	300 200* 4,000

^{*}Feet per quarter.

Each order placed under this paragraph (d) (4) (ii) must be accompanied by or endorsed with both the standard form of certification in CMP Regulation No. 7 and the following sentence: "This order is placed under paragraph (d) (4) (ii) of CMP Regulation No. 4."

The purpose of this paragraph (d) (4) (ii) is to permit persons using small quantities of steel to obtain their requirements without the use of allotments: it is not to allow users of large quantities to obtain steel in addition to their purchases on authorized controlled material orders. Therefore, a person who buys any steel under this paragraph (d) (4) (ii) cannot receive steel from producers or distributors in any quarter in excess of the amounts shown in the above table whether it is received on authorized controlled material orders or otherwise. Purchases of steel from persons other than producers or distributors do not affect the amount which can be bought under this paragraph. Such purchases are subject to the provisions of Priorities Regulation 13 and paragraph (u) of CMP Regulation No. 1.

Copper

- (e) Definitions with respect to copper. The following definitions shall apply for the purpose of this regulation and for the purpose of any other CMP regulation unless otherwise indicated:
- (1) "Copper wire mill product" means bare, insulated or armored wire or cable for electrical conduction made from cop-

per or copper base alloy or copper-clad steel containing more than 20% copper by weight.

(2) "Brass mill product" means sheet. wire, rod or tube made from copper or copper base alloy. This does not include copper wire mill products.

(3) "Warehouse" means any industrial supplier, mill supplier, plumbing supply house, electrical wholesaler or other person engaged in the business of distributing brass mill products or copper wire mill products to industry or trade otherwise than as a controlled materials producer and includes warehouses owned by mills.

(4) "Item of copper wire mill product" means any wire or cable made from copper, copper base alloy or copper-clad steel containing more than 20% copper by weight for electrical conduction which is different from all other items of that form by reason of one or more differences of its specifications, such as size, alloy or insulation. Differences in temper or length do not disserentiate items.

(5) "Item of brass mill product" means sheet, wire, rod or tube made from copper or copper base alloy, which is different from all other items of that form, by reason of one or more differences of its specifications, such as size, shape, gauge, thickness or alloy. Differences in temper or length do not differentiate items except in the case of copper and brass sheet, where differences in temper will constitute different items.

(6) "Warehouse stock" means brass mill or copper wire mill products physically located in warehouse inventories, whether owned or held on consignment

by the warehouse. (f) Delivery of brass mill or copper wire mill products—(1) Delivery from warehouse stock. (i) A warehouse shall fill authorized controlled material orders for brass mill or copper wire mill prod. ucts, in accordance with this regulation, if it can fill the orders from its stock. In no case, however, may a warehouse fill an order for brass mill or copper wire mill products unless the purchaser has the right to accept delivery under the provisions of this paragraph (f) which limit the amount of brass mill and copper wire mill products which a purchaser may get from a warehouse. A warehouse is entitled to rely on a certificate furnished by any of its customers under paragraph (f) (1) (iv) of this regulation, unless it knows or has reason to believe the cer-

tificate to be false. (ii) No person shall place orders for delivery from warehouse stock of any item of brass mill product to any one destination, during any one calendar month, which aggregate more than 2,000 pounds gross weight and no person shall accept any delivery in excess of this amount, except that this limitation does not apply to condenser tubes or to the resale of brass mill products obtained by brass mill warehouses through an authorization issued by a Regional Office of the War Production Board or by the Copper Recovery Inventory Branch, War Production Board, 350 5th Avenue, New York City, New York. .

(iii) No person shall place orders for delivery from warehouse stock of any item of copper wire mill product to any one destination, during any one calendar month, which aggregate more than 3,000 pounds copper content and no person shall accept any such delivery in excess of this amount, except that this limitation does not apply to the resale of copper wire mill products obtained by copper wire mill warehouses through an authorization issued by a Regional Office of the War Production Board or by the Copper Recovery Inventory Branch, War Production Board, 350 Fifth Avenue, New York City, New York.

(iv) No person shall place an order under this paragraph (f) (1) and no warehouse shall accept an order unless it is accompanied by, or endorsed with, a certificate in the form provided in CMP Regulation No. 7 (or a certificate prescribed by any regulation or order of the War Production Board for use in placing an authorized controlled material order). signed manually or as provided in Priorities Regulation No. 7.

(2) Shipments direct to customer or to fill specific orders. If a warehouse wants to order material to fill a specific authorized controlled material order of a customer instead of filling it from stock, it may order the material either for direct shipment to the customer or for shipment via the warehouse, by placing on its order the customer's name and allotment number or symbol. Such an order is to be treated as an authorized controlled material order. The ware-house may not treat the delivery to the customer as made from stock and may not request a replacement. However, in the case of brass mill products, a warehouse may order from another warehouse only if it does not have the material in inventory and needs it for immediate delivery to a customer on an authorized controlled material order. It must state these facts on its order.

(3) Rejection of orders. (i) A warehouse must not fill any order for brass mill or copper wire mill products except those which it is required or permitted to fill under paragraph (f) (1) or (f) (2)

above.

(ii) A warehouse must not deliver any brass mill or copper wire mill product on an authorized controlled material order except in the quarter for which the allotment appearing on the order is valid. Orders bearing symbols such as "MRO" or "SO" which do not have to bear any quarterly identification may be filled during any quarter, but such orders must indicate when delivery is required if for other than immediate delivery.

(iii) A warehouse may reject any order calling for immediate delivery of brass mill or copper wire mill products which it does not have in stock or know to be in

transit to its stock.

(iv) A warehouse may reject an order calling for future delivery. If it elects to accept the order, it must not set aside or hold any material to fill it.

Aluminum

(g) Definitions with respect to aluminum. The following definitions shall apply for the purpose of this regulation and for the purpose of any other CMP Regulation unless otherwise indicated:

(1) "Aluminum" means aluminum in any of the forms and shapes constituting controlled material as defined in CMP

Regulation No. 1.

(2) "Distributor" means any person who is specifically authorized by the War Production Board to engage in the business of receiving aluminum for sale or resale.

- (h) Deliveries of aluminum by distributors on authorized controlled material orders. (1) Each distributor shall, to the extent of his available stocks, fill authorized controlled material orders, except that a distributor shall reject any authorized controlled material order calling for delivery at any one time, to any one person, at any one destination, of more than 2,000 pounds of any gage, alloy and size of aluminum sheet, or more than 900 pounds of any alloy, shape and size of aluminum wire, rod or bar, or more than 600 pounds of any alloy, size and shape of aluminum tubing, extrusions or structural shapes: Provided, however, That any distributor shall be entitled to fill an authorized controlled material order calling for delivery at any one time. to any one person, at any one destination, of 5,000 pounds or less of any gage, alloy and size of aluminum sheet, 3,000 pounds or less of any gage, alloy and size of aluminum wire, rod or bar or 2,000 pounds or less of any alloy, size and shape of aluminum tubing, extrusions or structural shapes, if such distributor shall first have requested the mill supplying him to fill such order and such mill shall have advised such distributor to fill the same from his stock. Such request and advice may be made verbally but shall be confirmed in writing.
- (2) No distributor shall deliver any aluminum except to fill an authorized controlled material order or pursuant to a specific direction of the War Production Board.
- General Provisions Applicable to Steel, Brass Mill Products, Copper Wire Mill Products and Aluminum
- (i) Directions to distributors and warehouses. Each distributor and warehouse shall comply with such directions as may be issued from time to time by the War Production Board with respect to making or withholding deliveries of steel, brass mill products, copper wire mill products or aluminum, and with respect to the earmarking of stocks of such material.

(j) Placement of authorized controlled material orders. A delivery order for steel, brass mill products, copper wire mill products or aluminum, shall be deemed an authorized controlled material order, if but only if,

(1) It is specifically designated as an authorized controlled material order by any regulation or order of the War Pro-

duction Board; or

(2) It is endorsed with the appropriate certification and allotment number or symbol in the way prescribed by paragraph (s) (3) of CMP Regulation No. 1.

(3) A delivery order for steel, brass mill products, copper wire mill products or aluminum, placed with a distributor or warehouse shall be considered as calling for immediate delivery unless the order specifically provides otherwise.

(k) Verbal delivery orders. Any delivery order requiring shipment within seven days may be placed verbally or by telephone by stating to the distributor or warehouse the substance of the information required by this regulation, Provided, That the person placing the order furnishes to the distributor or warehouse, within fifteen days after placing the same, written confirmation of the order complying with the requirements of this regulation. In case of failure to receive written confirmation within fifteen days, the distributor or warehouse shall not accept any other order from, or deliver any additional material of any kind to, the purchaser until such written confirmation is furnished. On or before the twentieth day of each month any distributor or warehouse who has received in the prior month a delivery order by telephone, shall notify the appropriate Regional Compliance Office of the War Production Board, of any case in which a purchaser has failed to furnish to him the written confirmation when due.

(1) Special provisions with respect to AAA orders. Notwithstanding the foregoing provisions of this regulation, an authorized controlled material order placed with a distributor or warehouse bearing a rating of AAA shall be filled in preference to any other authorized con-trolled material orders regardless of time

of receipt.

(m) Communications. All communications concerning this regulation should be addressed to the War Production Board, Washington 25, D. C., Ref: CMP Regulation No. 4 (specify whether steel, copper or aluminum).

Issued this 10th day of February 1944.

INTERPRETATION 1

DISTRIBUTORS OF AUTOMOTIVE REPLACEMENT PARTS

The definitions of "distributor" and "warehouse" appearing in paragraphs (b) (2) and (e) (3) of CMP Regulation No. 4 are not deemed to include persons engaged solely in the business of distributing automotive replacement parts. Consequently, such persons may sell, for use as automotive replacement parts, such items as bulk or spooled primary and spark plug wire, battery cables and magnet wire, without reference to the terms of CMP Regulation No. 4, but subject to the provisions of General Limitation Order L-158 and other applicable regulations or orders (Issued Feb. 27, 1943)

PART 3207-RADIO AND RADAR DIVISION IN-DUSTRIAL TYPE INSTRUMENTS; CONTROL VALVES AND REGULATORS: SIMPLIFICA-

[Limitation Order L-272, Schedule VIII]

RAILROAD GAUGES

§ 3207.2 Schedule VIII to Limitation Order L-272—(a) Scope of this schedule. This schedule sets forth certain special rules which must be followed in the manufacture of "railroad gauges" which means gauges specially designed and manufactured for use on locomotives, railway rolling stock, subway trains or trolleys. Airbrake gauges are included, but gearless crank type movement gauges are not included. A gauge is any instrument which measures and indicates, but does not record, any pressure or vacuum (regardless of the units specified on the dial) by means of a bourdon spring or springs, a diaphragm, or a bellows; or any complete element assembly of such an instrument without a case. Schedule IV to this order, which applies to indicating dial pressure gauges, generally, no longer applies in any respect to railroad gauges, so Schedule IV need not be considered at all in connection with this schedule. Schedule IV continues to apply, however, to other gauges, even when they are purchased by railroad, subway or traction companies.

(b) Size. specifications (expressed in inches-dial diameter). Railroad gauges shall be manufactured only in the 31/2, 5 and 6% inch sizes, subject to the following special size limitations:

(1) Tank-level gauges shall be manufactured in only one size by each producer, and each producer may select the one size which he wishes to manufacture.

(2) Quadruplex gauges shall be made in only one size of casing, and each producer may select the one size of casing which he wishes to manufacture.

(3) Double-dial gauges and boiler gauges shall be made in the 6¾ inch size

only.

(4) Duplex gauges shall be made in the 3½, and 5-inch sizes only, except that steam chest and back pressure gauges may also be made in the 6% inch size.

(5) Steam heat, booster, stoker, feed water heater and injector gauges shall be made in the 5-inch size only.

(6) Single pointer airbrake gauges shall be made in the 3½ and 5-inch sizes

only.

(c) Range specifications. Railroad gauges shall be manufactured only in the following pressure ranges (or their metric equivalents): O-30 in. vac.; 30 in.-15 lb.; 30 in.-30 lb.; 30 in.-60 lb.; 30 in.-100 lb.; 30 in.-150 lb.; 30 in.-200 lb.; 30 in.-300 lb.; 0-15 lb.; 0-30 lb.; 0-60 lb.; 0-100 lb.; 0-160 lb.; 0-200 lb.; 0-300 lb.; 0-400 lb.; 0-600 lb.; 0-800 lb.; 0-1,000 lb.; 0-1,500 lb.; 0-2,000 lb.; 0-3,000 lb.; 0-5,000 lb.; and 0-10,000 lb. There are however certain exceptions to these limitations. The exceptions are:

(i) Ranges are not limited for pressures lower than 15-lb. or higher than

10,000 lb. p. s. i.

(ii) Boiler gauges shall be manufactured only in pressure ranges of 0-400 lb.; 0-500 lb.; and 0-600 lb.

(d) Design limitations. (1) Railroad gauges shall be furnished with bottom connection only.

(2) The following items and special features shall be eliminated:

(i) Ribbed or lugged back construction, except for bosses on the back of tho flange at bolt holes.

(ii) Customer's name on dial.

(iii) Illuminated dial construction or attachments, except for quadruplex and double dial gauges.

PART 3208-SCHEDULED PRODUCTS [General Scheduling Order M-293 as Amended Feb. 10, 1944]

Section 3208.1 General Scheduling Order M-293 is hereby amended to read

The fulfillment of requirements for the defense of the United States has created a shortage in the production of certain products for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote national defense:

§ 3208.1 General Scheduling Order M-293—(a) Definitions. For the pur-

pose of this order:
(1) "M-293 product" means any item listed in the tables to this order except Table 1. These items are identified in the Tables as Class X; Class Y and undesignated. The same products may be designated X and Y and, if so, are subject to the provisions applying to each class. Class X, Class Y and undesignated products are subject to all other provisions of this order.

(2) "Manufacturer" means any person to the extent that he is engaged in making an M-293 product.

(b) Operations reports. Each manufacturer must file an operations report on the applicable form shown in Column 1 of the appropriate table in accordance with the instructions accompanying the form at the times there shown. If no form is designated in Column 1, no operations report need be filed.

(c) Provisions covering Class X products—(1) Filing of shipping schedules of Class X products. Each manufacturer of Class X products must file with the War Production Board his shipping schedule and other information called for on the form shown in Column 2 of the appropriate table, at the times

shown and in accordance with the instructions accompanying the form, except when he is excused from filing by the War Production Board. If the War Production Board excuses the manufacturer from filing his shipping schedule under this paragraph, that does not excuse him from complying with paragraph (f) below. In arranging the sequence of shipments on his shipping schedules, unless otherwise directed by the War Production Board, the manufacturer shall be governed by Priorities Regulation No. 1 and other applicable orders and regulations of the War Production Board. The shipping dates of purchase orders which are already part of a frozen schedule, must not be

changed.

(2) Maintaining shipping schedules of Class X products when not filed. Each manufacturer of a Class X product who is excused from filing his shipping schedule by the War Production Board, must maintain his proposed shipping schedule on the forms shown in Column 2 of the appropriate table if so instructed by the War Production Board, otherwise in such manner that they can be readily transferred to that form. In arranging the sequence of shipments on his shipping schedule, unless otherwise directed by the War Production Board, the manufacturer shall be governed by Priorities Regulation No. 1 and other applicable orders and regulations of the War Production Board. The shipping dates of purchase orders which are already part of a frozen schedule must not be changed.

(3) Freezing of shipping schedules of X products. If a manufacturer is not excused from filing, his shipping schedule is automatically frozen under Priorities Regulation 18 on the date it is filed for the period of time specified in Column 4 of the appropriate table or for sixty days if no time is specified. If a manufacturer of a Class X product is excused from filing his shipping schedule, his schedule becomes frozen under Priorities Regulation 18 at the time specified in the letter excusing him, and at the close of business on the same day of each successive month thereafter. The schedule is frozen for shipments to be made during the period of time specified in Column 4 of the appropriate table or for sixty days if no time is specified. Even though a manufacturer is excused from filing his shipping schedule, he may, if he wishes, file the Column 2 form with the War Production Board but his shipping schedule is frozen at the time and manner specified in the letter excusing him.

(4) Production and shipment of X products. When a shipping schedule has become frozen, the manufacturer must schedule his production and make his shipments so as to meet the schedule without regard to preference ratings or directions from any governmental agency, except that the schedule may be amended by the War Production Board as explained in Priorities Regulation 18

and paragraph (g) of this order.
(d) Provisions covering Class Y products-(1) Authorization of orders required. No person shall place a purchase

No. 30-2

order with a manufacturer and no manufacturer shall accept a purchase order for any Class Y product unless the purchase order is accompanied by specific authorization of the War Production Board obtained on the form shown in Column 3 of the appropriate table. If a time for shipment is specified in the authorization of the War Production Board, a manufacturer must not accept a purchase order specifying any other shipping time. He must not accept an order which will interfere with a previously frozen schedule or on which delivery cannot be made on the specified date because of the requirements of Priorities Regulation No. 1 or any other applicable order or regulation of the War Production Board.

(2) Freezing of authorized orders for Y products. All authorized purchase orders for Class Y products which the manufacturer accepts, automatically become a "frozen schedule" under Priorities Regulation No. 18, and the manufacturer must schedule his production and make his shipments so as to meet the schedule without regard to preference ratings or directions from any governmental agency, except that the schedule may be amended by the War Production Board as explained in Priorities Regulation 18 and paragraph (g) of this order.

(3) Authorization of orders for Y products placed by distributors. A distributor who places a purchase order for a Class Y product must accompany it by an authorization as provided in subparagraph (1) above. If he wants to buy for immediate resale, the information called for by the application for authorization must be given about the customer and not the distributor. The application may be filled out and filed either by the distributor or by the customer. In either case the distributor must forward the authorization with his purchase order to the manufacturer. If the distributor is buying for stock, he must say so on his application and give all information called for by the application form in terms of the type of customers to whom he expects to sell. A manufacturer must obtain authorization for the transfer of a Y product to a distribution outlet owned or controlled by him. The term "distributor" includes wholesalers, retailers, jobbers, sales agencies and consignees for sale.

(e) Provisions covering undesignated products. No manufacturer of an undesignated M-293 product need file the form shown in Column 2 of the appropriate table unless specifically directed to do so by the War Production Board or unless he chooses to do so. If the manufacturer is directed to file, the shipping schedule shown on the form becomes frozen in accordance with the direction. If the manufacturer is not directed, but chooses to file the form, the shipping schedule shown on it does not become a frozen schedule until the War Production Board specifically directs the manufacturer that it is one.

(1) Special reporting provisions covering certain M-293 products—(1) Reports of requirements by purchasers of M-293 products. Any claimant agency

listed on Table 1 may instruct its prime contractor (or the prime contractor of a procuring agency which the claimant agency represents) who is purchasing M-293 products required in his prime contracts, or any other person purchasing M-293 products except for incorporation into other M-293 products manufactured by himself, to file with the claimant agency a report on Form WPB-3003 or other form approved for the purpose by the Bureau of the Budget. In such a case the person must file the form giving the information called for concerning the purchase orders which he has placed or will place for each specified M-293 product required under the Table 1 programs, except those which are indicated on the tables as being exempt from this paragraph. The report must state how many of each M-293 product will be used as spares.

(2) Reports of shipping schedules. A claimant agency listed on Table 1 may send to a manufacturer a Form WPB-3003, or other form approved for the purpose by the Bureau of the Budget, which shows the requirements of purchasers described in paragraph (f) (1) above covering all M-293 products for Table 1 programs, except those indicated on the tables as being exempt from the provisions of this paragraph. If a manufacturer receives such a form filled out and certified by the claimant agency in accordance with the accompanying instructions, he must fill in only the proposed shipping dates determined in accordance with Priorities Regulation No, 1 and other applicable orders and regulations of the War Production Board. The shipping dates of purchase orders which already are part of a frozen schedule must not be changed. He must file copies of the form with the claimant agency in accordance with the accompanying instructions and also with the War Production Board when requested to do so by the appropriate industry division. This schedule does not become a frozen schedule unless the War Production Board specifically directs the manufacturer that it is one.

(g) Other scheduling provisions. With respect to any M-293 product, the War Production Board may, notwithstanding any other order, preference rating, directive, rule or regulation (except Priorities Regulation 18) of the War Production Board, or of any other government agency:

(1) Revoke any authorization or approval to place a purchase order granted by it under paragraph (d) above;

(2) Direct the return or cancellation of any purchase order on the books of a manufacturer;

(3) Direct changes in the shipping schedule of a manufacturer;

(4) Cancel purchase orders placed with one manufacturer and direct that they be placed on another manufacturer;

(5) Take such other action as it deems necessary with respect to the production of, the placing of purchase orders for, or the shipment of M-293 products.

(h) Deviations from a frozen schedule. If a manufacturer is unable to fulfill on time a frozen schedule of any M-293 product, he must make shipments, so far as practicable, in the sequence required by the schedule. In any case where the manufacturer foresees an appreciable delay in or acceleration of production, the manufacturer must notify the War Production Board of the reason for the delay or acceleration and the revised dates on which he expects to be able to make shipments under each purchase order affected. The manufacturer shall notify the War Production Board, either by letter or telegram, at his option.

(i) Appeals. Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provisions appealed from, and stating fully the grounds of the appeal.

(j) Reports and communications. The list of M-293 products is arranged so that the name of the Industry Division appears at the top of the table covering M-293 products for, which it is primarily responsible. All reports and forms required by the order and all appeals should be addressed to the War Production Board, Washington 25, D. C., attention of the appropriate Industry Division so listed. All reports and forms required in paragraphs (b), (c), (d), (e), (f), (g), and (h) of this order have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(k) Violations. Any person who wilfully violates any provisions of this order, or who in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control, and may be deprived of priorities assistance.

Effective date. This order, as amended, shall become effective March 1. 1944.

Issued this 10th day of February 1944.
